Enrichment Programs Session III

Classes Begin March 9th

Registration Now Open!

Monday: Happy Fit Fitness, Sports & Fun

This program provides children with an introduction to a range of wonderful sports. Muscles get worked, gross motor skills improve as does overall fitness strength. Children will learn key sports skills, discover newfound self-confidence and get an amazing fitness workout.

Tuesday: Cooking with Class-Lil' Cooks

Cooking with Class features the art of cooking intertwined with math, science, language arts, and more. This program is developmentally appropriate for children in preschool and includes unique cooking themes, stories, crafts, and lots of fun!

Wednesday: Science = Fun

This eight-week comprehensive class will expose children to all aspects of science processing skills. Each child will learn to approach situations using scientific methods. Observation, classification, measurement, prediction, and communication will be explored using paint, ooey-gooey liquids, colorful solids, and fun project oriented experiments. At the end of the eight weeks, each child will have completed his/her own science journal to take home.

Thursday: Handprint Art

Your child will create art work by tracing or dipping their hand which will capture his/her small handprint for a moment in time. In addition they will create a "handbook" by dictating a story to accompany their artwork.

Friday: Math & Manipulatives

Children will explore, organize and manipulate materials as well as communicate mathematical thinking with the instructor. The skills will include number concepts, patterns and relationships, geometry and spatial sense, measurement and data collection, organization and representation.
