TUESDAYS: The Art of Sculptures and Woodworking

This class features the art of woodworking, paper mâché and free style sculpture making. The children will design, assemble and paint various pieces of art that they create. In a process art experience, children have many opportunities to explore the materials, think, express themselves, and create. In a product-focused art experience, children follow directions given to them to make a predetermined end product. Process art experiences can support children's creativity, enjoyment of art, thinking skills, and healthy development. If time allows the children will dictate stories to go along with their works of art!

Tuesday Dates: March 7, 14, 21, 28 April 11, 18, 25 May 2

WEDNESDAYS: Science

During this session of science, the children will explore, organize, and manipulate materials that deal with the habitats of animals and plants. They will also explore the difference between nocturnal and diurnal animals. Throughout these eight weeks they will also create a variety of habitats to bring home.

Wednesday Dates: March 8, 15, 22, 29 April 12, 19, 26 May 3
